

SCION VERSIONS

TECHNICAL RIDER: LIVE SET UP - RENÉ LÖWE / VAINQUEUR

1. Stage set up:

- a small mixing desk with at least 10 channels with parametric eqs, best is an Allen & Heath GLS 2
- one audio-interface Motu 828 or 828 MK II (firewire)
- three power outlets - european standard and run with 230V
- one table on stage, one and a half meter wide, one meter high, for laptop, mixer & midi controls

Please note:

- if the Motu-interface is not available, the artist has to be informed to bring his own instead
- all other pieces of the equipment have to be provided by the promoters side

2. Main out set up:

- the main system will be feeded by a stereo summary coming from the stage mixers main output

3. Stage monitoring:

- at least two monitor speakers in front of the setup, left and right of the position of the artist
- the monitor volume has to be controlled on the mixer of the stage setup by the artist himself

4. Sound check:

- the artist will need 10 minutes for setting up the gear
- the sound check will take about 20-30 minutes
- both, the monitor and main system have to be in use for the sound check
- best time for sound check is in the afternoon or before the dinner

5. Contact:

- please send an email to reneloewe@scion.de
