

SCION VERSIONS

TECHNICAL RIDER: LIVE SET UP - SUBSTANCE

1. Stage set up:

- a small mixing desk with at least 10 channels with parametric eqs, best is an Allen & Heath GL 2, Midas Venice 160 or 240
- one audio-interface Motu Ultralite II (firewire)
- three power outlets - with adapter for EURO plugs
- one table on stage, one and a half meter wide, one meter high, for laptop, mixer & midi controller

Please note:

- if the Motu-interface is not available, the artist has to be informed to bring his own
- all other pieces of the equipment have to be provided by the promoters side

2. Main out set up:

- the main system will be feeded by a stereo signal coming from the stage mixers main output

3. Stage monitoring:

- at least two monitor speakers next to the setup, left and right of the position of the artist
- the monitor volume has to be controlled by the artist himself, on stage

4. Sound check:

- the artist will need 10 minutes for setting up the gear
- the sound check will take about 20-30 minutes
- the monitor and the main system have to be in use for the sound check
- best time for sound check is in the afternoon or before the dinner

5. Contact:

- please send an email to mail@djpete.de
